Main skills to be developed :

Project management

Quality processes

Location (City and Country)	State of QATAR - Asghal
Period	<ul style="list-style-type: none"><li>- First 15 days in Rome Headquarter</li><li>- 1 or 2 months on the work site in Qatar</li><li>- Last 15 days in Rome Headquarter</li></ul>

## DESCRIPTION

---

Mission and Context	<p>As part of the Roads Investment Program, the Qatar Public Works Authority, Ashghal, has identified the need for an increased level of service with regards to Road Pavement Quality Assurance and Quality Control Procedures.</p> <p>The QA/QC Pavement Consultant has been appointed to provide Technical Support in regard to the enhancement of the Quality Assurance and Quality Control Auditing process, through the implementation of ten Tasks, the content of which is described here below.</p>
Main Activities	<p>You will be part of A.I.E.'s project team focusing on one of the following two Tasks of your choice:</p> <ul style="list-style-type: none"><li>- <b>Task 3 : Audit of Pavement Construction undertaken by Contractors and key supply Chain Partners.</b></li></ul> <p>The objective of this task is to conduct actual auditing of road pavement construction projects following the guidelines established in the Manual produced in Task 1 and starting from a first issue of Audit Guidance Notes, prepared by the Consultant.</p> <ol style="list-style-type: none"><li>1- Develop audit guidance notes</li><li>2- Conduct the audits</li><li>3- Review and analysis of audits</li></ol> <ul style="list-style-type: none"><li>- <b>Task 6 : Pavement failure Analysis and Investigation</b></li></ul> <p>Once a pavement failure investigation is requested by the PWA, the Anas Team will dispatch a Pavement Expert Team to the project site to conduct the following tasks:</p> <ol style="list-style-type: none"><li>1. Identify the type of failure (e.g material, construction, or structural)</li><li>2. Develop a plan to investigate the failure</li><li>3. Critical steps</li><li>4. Needed personnel</li><li>5. Needed equipment</li><li>6. Tests to be conducted : non-destructive and destructive</li><li>7. Time frame of the investigation</li></ol> <p>Based on the Pavement Expert plan, the Anas Team will supply the necessary personnel and equipment to complete the investigation. The full understanding of the cause and consequences of the failure is very important to the successful completion of the failure investigation.</p>
Reporting to (Name and title)	Reporting to the Project Director
