

CEDR Symposium Road Traffic Noise: first follow-up actions

Conférence Européenne
des Directeurs des Routes

Conference of European
Directors of Roads

Wiebe Alberts

Chairman CEDR Taskgroup Road Noise 2013-2017

CEDR Symposium Road Traffic Noise

Copenhagen 16 May 2017

CEDR Symposium Road Traffic Noise: overview

- knowledge centres noise reducing pavements
- road traffic noise topics in CEDR Call 2012 Environment

CEDR Symposium Road Traffic Noise: knowledge centres

- objective:
 - demonstrate that use of such pavements is a suitable option to reduce noise at source on new and existing roads

CEDR Symposium Road Traffic Noise: knowledge centres

- objective:
 - demonstrate that use of such pavements is a suitable option to reduce noise at source on new and existing roads

- mean:
 - two knowledge centres:
 - in NL (porous asphalt) and in DK (thin noise reducing pavements)
 - offer tailor-made programmes
 - have websites loaded with practical documentation
 - start Q3/Q4 2017

CEDR Symposium Road Traffic Noise: noise topics in CEDR Call 2018

- the rationale behind CEDR Calls
 - topics → interest → experts&budget → research → knowledge

CEDR Symposium Road Traffic Noise: noise topics in CEDR Call 2018

- the rationale behind CEDR Calls
 - topics → interest → experts&budget → research → knowledge
- feedback from attendees CEDR Symposium
- consultation CEDR member states Q3/Q4 2017

CEDR Symposium Road Traffic Noise: noise topics in CEDR Call 2018

- the rationale behind CEDR Calls
 - topics → interest → experts&budget → research → knowledge
- feedback from attendees CEDR Symposium
- consultation CEDR member states Q3/Q4 2017
- topics → **interest ← experts&budget** → research → knowledge
