Ljubljana, Slovenia, 21 - 24 April 2008

Greener, Safer and Smarter Road Transport for Europe

TRANSPORT & CLIMATE CHANGE

TRAFFIC SAFETY

GREENER AND SMARTER TRANSPORT

The Second European Road Transport Research Arena is jointly organised by:

CEDR

European Commission

European Road Transport Research Advisory Council
INVITATION

It is my pleasure to invite you, on behalf of the European Commission, to the second European Road Transport Research Arena ‘TRA 2008’, to be held in Ljubljana, Slovenia, from 21 - 24 April 2008.

In a Europe of many cultures, traditions and languages, one of the challenges lies in getting researchers, business people and policy makers to speak with one voice. As sustainable mobility rises up the political agenda, it becomes so much more important that the major players have an opportunity to meet, so they can discuss the direction to take in the future. TRA 2008 will provide such a meeting place.

Efficient mobility is a key issue for policy makers. Enabling the free movement of people and goods is crucial to economic prosperity and quality of life. However, road congestion in the EU is on the increase. The TRA 2008 conference represents a major opportunity for EU policy makers to move towards a better transport system. Strong Commission support for this meeting reflects the importance of road transport within the larger European policy agenda.

European industry should take full advantage of the freedom and flexibility offered by a state-of-the-art road transport system. But industrial competitiveness in road transport also means exporting European transport-related products. The automotive sector is a key player in the European economy; EU carmakers deliver multi-billion euro turnover for Europe’s economy and millions of jobs for Europeans. It is by finding and exploiting synergies with other stakeholders that European carmakers will maintain its place in European industry.

TRA 2008 will cover all aspects of road transport research, focussing on the ‘Strategic Research Agenda’ defined by the European Road Transport Research Council, known as ERTRAC. This is all about the sector getting together to identify its research needs. It means that there is a strategic plan for the sector, leading to better, more efficient use of resources and ensuring that research delivers what is needed. This also means combining and coordinating European, national, regional and private research actions, and improving the networking, clustering and pooling of research and development capacities.

TRA 2008 will provide a forum to promote all European road research efforts, making it a golden opportunity to create a true ‘European Road Transport Research Arena’.

Janek Potočnik, European Commissioner for Science & Research
Slovenia, worldwide known as a green country, lies on the crossing of two important transport corridors. The arrival of researchers, industry representatives and road managers to this arena of cooperation, exchange of science achievements and plans for the future means a great challenge for the creators of greener, safer and smarter transport in Europe. Slovenia wants to actively participate with its professional potential. The conference concurs with Slovenia’s presidency to the European Union in the first half of the 2008 and this is an excellent opportunity to underline at the conference some themes from the presidency programme, among them certainly being influence of transport to climate changes and ensuring safety on roads. And the same themes are covered in the main conference topics in Ljubljana.

It will be a great honour to meet the highest representatives of the main organisers, European Commission, Conference of European Directors of Roads and European Road Transport Research Advisory Council, authors of papers at plenary and strategic sessions, authors of presentations and other conference participants at the TRA 2008 conference. Ministry of Transport of the Republic of Slovenia supports the local organisers of the event and joins to the invitation for participation in great numbers.

Slovenia is a beautiful country; people are hospitable and excellent organisers. We would like to convince you of all of the above. Therefore I invite you to Ljubljana from 21 to 24 April 2008 with a wish that after the conference we are all enriched for new knowledge and encouragement for more effective and environmentally friendly development of transport in Europe.

On behalf of CEDR, EC, ERTRAC, and Slovenian local organisers it is a great pleasure for us to invite you to the 2nd Transport Research Arena conference in Ljubljana, Slovenia from 21 to 24 April 2008.

The main purpose of the TRA is the implementation of the European Research Area on road transport. TRA is most attractive for the research industry and to those who have to implement the results of research into transport: namely road administrations at national, regional and local levels, as well as vehicle manufacturers and fuel producers.

The conference will deal with climate changes and road safety, embraced in the slogan "Greener, safer and smarter transport for Europe". The conference programme will be organised in several plenary, strategic and thematic sessions based on European road research needs and agendas.

TRA 2008 will offer an excellent opportunity for participants from the member states that have joined the European Union in 2004 and 2007, as well as from other European non-EU countries, to find new partners and to meet the EC officials who will assist them in their future research efforts, transport of goods, transport safety and security, etc.

At the TRA 2008 exhibition, conference participants will get information on the Seventh Research Framework Programme (FP7) as well as other action plans and initiatives, and see the work of a variety of EU-funded projects that are making major strides towards better road transport.

The weeklong TRA 2008 conference will feature a number of technical visits and other events showcasing some of Slovenia’s major road transport facilities and projects, and cultural highlights.

We warmly invite you all to attend the TRA 2008 in Ljubljana!
THE OBJECTIVE OF TRA 2008

The objective of TRA 2008 is to forge new, productive partnerships across all transport sectors. The road transport industry is an innovative force in Europe and one of its largest R&D investors. Climate change, urban congestion, traffic safety and the increasing demand for people and freight transport require adequate and innovative solutions. TRA 2008 will respond to this need, by gathering an expected 1,500 industry and research managers, senior researchers, engineers and scientists, as well as representatives of local, regional and national public authorities across Europe and around the world.

Conference Programme

The programme will be focused around the following six pillars:

I. European Road Research Needs and Agendas
II. Mobility of People & Transport of Goods
III. Safety & Security
IV. Energy, Environment & Resources
V. Design & Production of Vehicles and Infrastructure
VI. Integrated Approaches

The conference slogan "Greener, safer and smarter road transport for Europe" clearly places the most critical concerns of the day – climate change, urban and long distance transport, and traffic safety – as the over-arching themes of TRA 2008. These themes are integrated into the entire programme, and they will receive special attention during the plenary sessions, where they will be challenged by established speakers from all areas of society: citizens, users, industry, politicians and researchers.

Furthermore, dedicated activities will focus on two particular groups of delegates: from the EU new member states and other non-EU countries, who in the past have not contributed to European research activities in the area of road transport to their full potential, and the early-stage researchers who are exploring the area of road transport within their research. A competition is being organised to give the students an opportunity to showcase their work to experts within the field, both on the web and, for the best applicants, in Ljubljana in April 2008.

TRA 2008 SUPPORT ACTIONS

OPPORTUNITIES FOR YOUNG RESEARCHERS TO ATTEND CONFERENCE

YEAR – Young European Arena of Research – is a competition for early-stage researchers who are exploring the area of road transport within their research. It will give the students an opportunity to showcase their work to experts within the field, both on the web and, for the 50 finalists, at the Transport Research Arena conference. Students are asked to submit an abstract on-line under one of six pillars, which will then go on public display on the website. The goal is to showcase 1,000 abstracts on the website. The organisers are now seeking coaches to encourage young people to participate in the competition. Coaches will receive briefing documentation and promotional materials to advertise the competition. Further details can be found on the website http://year.fehrl.org.

If you are interested in registering as a YEAR coach and/or judge, please download the Coach Registration Form from the website and return by email to year@ucd.ie, with YEAR Coach as the subject.

EU NEW MEMBER STATES AND NON-EU COUNTRIES FORUM

TRA 2008 will offer an excellent opportunity for participants from the EU Member States that have joined the European Union in 2004 and 2007, as well as from other European non-EU countries, to find new partners and to meet the EC officials who will assist them in their future research efforts.

Through its Seventh Framework Programme, the European Commission supports this initiative by providing grants for registration fees and some travel expenses for 100 delegates from these countries. Exact rules for qualifying and receiving the grant are available on http://tra2008.fehrl.org. The competition, which will be primarily based on a first come, first served basis, with some bonuses for authors of papers for TRA 2008, will be launched on the http://tra2008.fehrl.org website on 15 January 2008.
The TRA 2008 conference will be held in Ljubljana, the capital of Slovenia. Ljubljana is home of some 270,000 inhabitants and is also the political, cultural, educational and scientific centre of Slovenia. This compact but complete capital city is frequently near the top of the lists of ‘must see’ cities on international tourism surveys.

The venue centre Cankarjev dom is a multi purpose congress and cultural centre, located in the heart of Ljubljana. It can provide good conditions for events of all sizes. Each hall has a full range of modern convention technology. The Congress Centre is wheelchair accessible. In addition, banquets for up to 1,500 guests can be arranged. The in-house team of professional congress organisers provides professional assistance in setting up all types of congresses and other events.
About Slovenia

Slovenia’s central location in Europe makes it easily accessible from all parts of Europe as well as from overseas. Our small but varied nation and its cities present a pleasant surprise for visitors from all over the world. Slovenia is the green heart of Europe lying between the mountains of Austria and Italy, the Panonian plains of Hungary and the warm clear Adriatic Sea. Alpine peaks in the northwest region of the country with many glacial valleys, gorges, waterfalls and lakes appeal to visitors looking for peace in the mountains as well as sports climbers, skiers, canoeists and others in search of relaxation and excitement in everyday life. The southern coastal zone of the country is rich with history as well as varied sensual pleasures which tempt any and all visitors. A specific region in the centre of Slovenia’s coastal area is full of caves (including Europe’s largest) with underground lakes and rivers which plunge into the depths of the earth – it is the original Karst. The caves and other attractions are interesting for the merely casual visitor or the more serious cave explorer. Not only is this zone geologically interesting but the soil and climate combine to produce one of the most distinctive wines in Europe – Teran – which yields a rich flavour experience that accompanies the local culinary specialties perfectly.

Facts about Slovenia

Area: 20,273 km²
Length of borders: 1,370 km in total; with Austria 318 km; with Italy 280 km, with Hungary 102 km; with Croatia 670 km;
Length of coastline: 46.6 km;
Population of Slovenia: 2,008,516 (June 2006);
Population density: 98.7 inh./km²
Nationalities: Slovenian 1,631,363, Italian 2,258, Hungarian 6,243, other nationalities 149,759, nationality undeclared 174,913 (2002 census);
Language: Slovene and also Italian and Hungarian in nationally mixed areas;
Capital: Ljubljana;
Population of Ljubljana: 267,386 (June 2006);
Highest peak: Mt. Triglav, 2,864 m;
Largest protected natural area: Triglav National Park, 83,807 ha;
Largest karst cave: Postojna Cave, 19.5 km;
Largest lake: Cerknica Lake (intermittent), 26 km²;
Longest river: Sava, 221 km
REGISTRATION

Registration fee

All delegates, including authors, committee members, students, exhibitors and accompanying persons are kindly invited to register. Registration through the On-line Registration Form is strongly recommended.

On the chosen day
Terms of payment

All payments must be made in EURS to the Cultural and Congress Centre Cankarjev dom, TRA 2008 Registration Office, by one of the following methods:

1. By bank transfer to:

   - **Bank name:** BANKA SLOVENIJE, Slovenska 35, Ljubljana, Slovenia
   - **SWIFT:** BSLSIS2X
   - **IBAN:** SI56 0110 0600 0022 527
   - **Beneficiary:** CANKARJEV DOM, Cultural and Congress Centre, Presernova 10, SI-1000 Ljubljana, Slovenia
   - **Account No.:** SI56 0110 0600 0022 527
   - **Notification:** TRA08 "participant's name"

   When using this method of payment, please do not forget to include the following reference in the bank transfer "TRA2008 + your name" and send a copy of the bank transfer together with the Registration Form to the TRA 2008 Registration Office in order to enable identification of payment. Please notice that participants are responsible for all bank transfer charges.

2. Credit Card payment

   We recommend the use of the on-line registration where the credit card will be processed electronically after you provide all required credit card details.

   You can also use the option to fill out the attached Registration Form (or PDF you can find on the conference web site).

   After the registration and payment all the participants will receive a confirmation and receipt notice by e-mail.

Terms of cancellation and refunds:

- For cancellation received no later than 10 February 2008 payment will be refunded minus an administrative fee of 50 EUR.
- For cancellation received between 11 February 2008 and 20 March 2008, 50% of the payment will be refunded.
- For cancellation received after 21 March 2008 payment will not be refunded.

Cancellations must be sent in writing to the Cankarjev dom, Cultural and Congress Centre, TRA 2008 Registration Office, Prešernova cesta 10, Ljubljana, Slovenia or by e-mail: registration@cd-cc.si within dates indicated above. The appropriate refunds will be made after the closing of the Conference.

The printed registration form (available also in PDF format on the web site) should be sent:

1. by fax to: +386 1 24 17 296
2. by post mail to:
   Cankarjev dom, Cultural and Congress Centre
   TRA 2008 Registration Office
   Presernova cesta 10
   SI-1000 LJUBLJANA,
   Slovenia

Please note that only forms that have been properly filled out and accompanied by proof of payment will be accepted. Please complete one form for each participant attending to the Conference.
ACCOMMODATION

The Organiser has reserved rooms in several hotels for the Conference participants. In order to make a hotel reservation, please fill out the accommodation section in the on-line Registration Form or use the printed registration form indicating the hotel of preference. The organiser cannot assure reservation after 22 February 2008. After this date bookings will be served individually upon request and confirmed depending on availabilities.

Reservations will be handled on a first-come, first-served basis and must be guaranteed with a credit card number. Total payments will be paid directly to the hotel at the reception when checking out. Cancellations must be sent in writing to the Cankarjev dom, Cultural and Congress Centre, TRA 2008 Registration Office, Prešernova cesta 10, Ljubljana, Slovenia or by e-mail: registration@cd-cc.si. Cancellations received before 10 April 2008 are free of charge. After this date one night will be charged to your credit card. For all additional information, please contact registration@cd-cc.si.

All rates quoted in EUR are per single / double - single use / double room and per night, breakfast and all taxes are included.

Youth Hostel Celica* Bed (2 bed room, bathroom in the corridor) 26.01 EUR
Youth Hostel Celica* Bed (3-5 bed room with bathroom) 24.01 EUR

*The booking in hostel is available for registered students only (all others will be automatically moved to some other hotel). Price per bed is indicated on the right side. Please note that the room will be shared with other students of TRA 2008.

TRANSFERS

The special rate transfers will only be organised from and to Ljubljana airport on the dates of arrival 20 April and 21 April 2008 and on the dates of departure 24 April and 25 April 2008.

Local representative will be available at the Ljubljana airport arrivals hall, where you should look for the “TRA 2008” signs. Please note that the organiser holds the right to combine transfers with maximum waiting time up to 20 minutes.

Total one way transfer price is 14 EUR per person.

Private car and van transfer

• One-way private car transfer from Ljubljana airport to Ljubljana city (hotel) for maximum 3 persons 39 EUR per car
• One-way private van transfer from Ljubljana airport to Ljubljana city (hotel) for maximum 8 persons is 52 EUR per van

For private car and van transfers, please send the requests directly to registration@cd-cc.si to receive a quote.

In order to make transfer reservations, please fill out the “Transfer” section in the on-line Registration Form or mark in the attached registration form. Participants who require departure transfer will be served at the KOMPAS travel desk in Cankarjev dom.

Transfers for participants arriving at the neighbouring airports Klagenfurt, Graz, Trieste, Venice and Zagreb airports can be organised as well. Such requests should be sent directly to registration@cd-cc.si.
INVITATION FOR EXHIBITORS

An exhibition will be held during the conference providing an opportunity for government agencies, consultants, contractors and equipment suppliers to present their projects, products, equipments, materials and services. The exhibition spaces in the first and second foyer halls will offer an excellent place for presentations and meetings. There is an opportunity to book the space through the on-line registration form. The exhibitors are kindly asked to fill out the on-line registration form for stand staff as well.

Please note that 20% Value Added Tax will be added to the prices.
### Conditions and important information

The organisers offer walls and power connections free of charge. You are asked to inform us in advance if you will need them. Additional equipment and services, such as additional furniture hire, internet connection, etc., can be rented at extra charge. The technical manual will be sent to all registered exhibitors. All the terms and conditions are a matter of contract.

The exhibition registration will be accepted according to space availability. Allocation of space will be done by the Organiser upon receiving the application.

Payments made before 31 January 2008 will benefit from the early bird fee. Minimum booth space is 6m². Booth space larger than 12m² is also available. The Organisers will contact you after your needs will be registered on the TRA 2008 web site.

   - **Notification:** TRA2008-EXH

2. **Credit Card payment**
   - We recommend you to use the on-line payment method.

For more information about exhibition possibilities, please contact:
- Cankarjev dom, Cultural and Congress Centre
  - Prešernova cesta 10
  - SI-1000 Ljubljana, Slovenia

E-mail: mateja.peric@cd-cc.si
P: +386-1-24-17-139
F: +386-1-24-17-296

### Terms of cancellation:

In case of any cancellations the organiser will retain:

- 50% of the agreed package amount if the cancellation is made before 3 January 2008.
- 80% of the agreed package amount if the cancellation is made after 3 January 2008.

Cancellations must be sent in writing to the Cankarjev dom, Cultural and Congress Centre, TRA 2008 Registration Office, Prešernova cesta 10, Ljubljana, Slovenia or by e-mail: registration@cd-cc.si by the dates indicated above. The appropriate refunds will be made after the close of the Conference.

Please notice that only forms that have been properly filled in and accompanied by proof of payment will be accepted. Please complete registration form for each exhibitor attending the Conference.
INVITATION FOR SPONSORS

The local organisers, i.e. the Slovenian National Building and Civil Engineering Institute (ZAG), DDC Consulting and Engineering, and the Road and Transport Research Association of Slovenia (DRC), kindly invite the potential sponsors and exhibitors to join TRA 2008 and contribute to its success. Sponsors are welcome to make their selection from the list of sponsorship options below. Final agreement about the sponsorship options will be negotiated with the Organising Committee representatives.

Technical Visits

22 April 2008 from 17:00 until 20:00

1. CONSTRUCTION OF THE ŠENTVID TUNNEL

On 22 April 2008 you are kindly invited to the construction site of the Šentvid tunnel in Ljubljana.

The Šentvid tunnel was initially anticipated to be a two-tube tunnel without access to the Celovška road, but due to increased traffic, a proposal to build a full, three tube junction within the tunnel was accepted. The construction of the Šentvid tunnel is a challenge for designers and civil engineers, made even more difficult by the extremely unfavourable geological and geotechnical conditions. The right and left cavern within the junction are 58 and 68 metres long and have a maximum clearance of approximately 320 m³. The length of the left tunnel tube is 1,033 metres and of the right 1,060 metres.

**Duration:** 3 hours  
**Price:** 26 EUR per person  
**Included:** bus transport, English-speaking guide  
**Min:** 20 pax

22 April 2008 from 17:00 until 20:00

2. TRAFFIC SURVEILLANCE AND OPERATION CENTRE ON THE MOTORWAY VRANSKO-BLAGOVICA

On 22 April 2008 you are kindly invited to visit the centre for traffic surveillance and operation on the motorway section Vransko – Blagovica.

The surveillance centre Vransko is equipped with the system for traffic surveillance and operation called “intelligent motorway” with the purpose of ensuring optimum traffic conditions regarding traffic, weather conditions, and extraordinary events on the motorway.

The basic functions of the intelligent motorway are the following:  
- Data collection and processing (weather and traffic);  
- Surveillance over the present conditions on the motorway;  
- System operation surveillance;  
- Traffic operation and informing users.

**Duration:** 3 hours  
**Price:** 29 EUR per person  
**Included:** bus transport, English-speaking guide  
**Min:** 20 pax
24 April 2008 from 14:30 until 19:30

3. PARTICULARITIES OF MOTORWAY CONSTRUCTION IN THE KARST REGION AND THE UNDERGROUND TREASURES OF POSTOJNA CAVE

The Technical visit will be combined with an impressive sightseeing tour and is therefore recommended for accompanying persons as well. We would like to introduce to you the one of the most distinctive landmarks of Slovenia – Karst in the south-west region of the country. A long tradition of excellent research of Karstic phenomena and its unique position in the centre of classical Karst have promoted the Karst Research Institute to one of the most recognised karstological centres in the world. We would like to present their specific role in highway construction to you. After the presentations you are invited to visit the most visited cave in Europe and the largest cave in the “classical Karst” – Postojna cave.

Duration: 5 hours
Price: 77 EUR per person
Included: bus transport, English-speaking guide, entrance fee to Postojna Cave, 3 course lunch in Jamski dvorec restaurant.
Min: 20 pax

25 April 2008 from 09:00 until 20:00

4. UNIQUE TECHNIC AND UNIQUE CULTURE
    HEAVY VEHICLE SIMULATOR

Within the EC Sixth Framework project SPENS (Sustainable Pavements from New Members States) a visit to the test field near Maribor will be organised.

A set of 6 different types of pavements was prepared and will be tested by the Heavy Vehicle Simulator, a unique machine provided by VTI (Swedish National Road and Transport Research Institute), a partner in the SPENS project. A must see for all who deal with design, construction and maintenance of pavements. After visiting the test site, the tour will join the post conference tour to Maribor and Ptuj.

Maribor is the second biggest town in Slovenia and is totally different from Ljubljana and the western parts of the country. It is situated on the banks of the Drava River, in the hilly countryside among the best vineyards. You will visit the city’s famous wine cellar and taste excellent wines from the region.

The oldest town in Slovenia, Ptuj is located just a short drive from Maribor. The writer Tacitus mentioned it for the first time already in the year 69. Numerous archaeological remains prove that the city experienced its first period of prosperity as the Roman town of Poetovio. The present much admired appearance of the city originates from the Middle Ages when Ptuj experienced its second rise to wealth and prominence. You will explore its beauty in a walking tour through the town and the visit of the Ptuj Castle. The castle, the Dominican and Minorite monasteries, the Provost church and the old city hall are some of the curiosities of the town, worth seeing. The heritage of past centuries will enchant even the most demanding visitor of this town.

Duration: full day
Price: 84 EUR per person
Included: bus transport, English-speaking guide, entrance fee to the Ptuj Castle, wine tasting with lunch in Maribor
Min: 20 pax
SOCIAL EVENTS

21 April 2008 from 19:30

WELCOME RECEPTION AND CULTURAL EVENT

The Welcome Reception with Cultural Event will be held in Congress centre Cankarjev dom on 21 April 2008.

Terafolk is one of Slovenia’s most successful contemporary bands, performing successfully throughout Europe many concerts. They have won the BBC’s Radio 3 World Music Audience Award and amassed a cache of five-star reviews along the way. Musically, they have evolved from playing only traditional music – Balkan, gypsy, Irish, klezmer – to now playing mostly Terafolk-composed music. Live performances started as duo gigs but now the band is performing concerts with a Symphonic Orchestra and introducing more talented guests from Slovenia and abroad.

Anja Bukovec was born in 1978 in Ljubljana, where she was introduced to the violin at the age of six. After ten years of schooling abroad (Music Conservatorium Prague, School of Higher Musical Education Köln, and Vienna) under the wings of Professor Jaroslav Foltyn, Professor Igor Ozim and Professor Gratchi Arutunian respectively, she returned to Slovenia in 2002, where she completed her post-graduate studies with Professor Vasilij Meljnikov at the Academy of Music.

Anja is famous as an artist who is proficient in different musical genres. She is a popular and appreciated guest of numerous casts and orchestras. As a solo performer and a member of chamber music casts, she regularly performs in Slovenia, Austria, Germany, Italy, Switzerland, Serbia and Croatia. She has also performed in Romania, Australia and China.

Gala dinner

23 April 2008 from 20:00

GALA DINNER

The Gala dinner with dancing will be held on 23 April 2008 at Ljubljana Exhibition and Convention Centre, 10 minutes’ walking distance from the city centre. Gala dinner is included in the fee for: participants, first authors, Committee members, accompanying persons.
Accompanying persons programme

21 April 2008 from 16:00 until 18:00

THE STORIES AND LEGENDS OF LJUBLJANA

This general walking tour of Ljubljana includes all the most significant sights of the old city centre. The tour starts with seeing the Baroque Town Hall building, the seat of the municipal council, with the famous Robba Fountain next to it, and continues across the lively fruit, vegetable and flower market designed by the architect Jože Plečnik. It continues past the Cathedral of St. Nicholas and the Slovenian Tourist Information Centre, across the Dragon Bridge, an Art Nouveau masterpiece adorned on each end with a dragon, the symbol of Ljubljana, and alongside the Ljubljanica river to the centrally located the Prešernov trg square. From there you are guided across the Triple Bridge, one of the most recognisable creations of the architect Jože Plečnik, to the Riblji trg square where the oldest building in Ljubljana is located. On your way to the centre of Ljubljana Old Town you cross the squares Mestni trg, Stari trg and Gornji trg, whose buildings boast beautiful Baroque façades, and continue towards the Cobbler’s Bridge. After crossing the bridge, the tour takes you to the Novi trg square from where you continue across a gentle slope towards Plečnik’s Summer Theatre Križanke and the famous Baroque Church of the Knights of the Cross. The final part of the tour takes you along Vegova ulica street past a line of houses whose walls incorporate the remains of the Roman town walls.

22 April 2008 from 09:00 until 16:00

AN ALPINE PEARL – LAKE BLED

Bled first began to attract tourists in the middle of the 19th century when a Swiss doctor, Arnold Rikli, built a climatic health resort there. It is often said to be a pearl of the Alpine region. What makes it unique is its emerald-green lake, a chapel on an island in the middle of the lake and a medieval castle from the 11th century, perched high on a cliff above the lake. A panoramic bus ride around the lake leads guests on to a guided tour of Bled castle. This is followed by a trip on a typical Bled ‘pletna’ boat to the island.

23 April 2008 from 09:00 until 17:00

UNESCO SPOT & BREATH OF MEDITERRANEAN (LIPICA STUD FARM & PIRAN)

A region called Kras (Karst) stretches across the southwest of Slovenia. It is a land of rare beauty, secret underground waters and caves, a special climate and fascinating flora among rocky hills. Right in the middle, in a picturesque village called Lipica, beautiful white horses called Lipizzaners have been bred for more than 400 years. A local guide takes visitors on a tour of the stables pointing out different stages of the breeding and training of these noble animals. A performance in which star Lipizzaner studs show off the excellence of the skills learnt in their training school is the centrepiece of the visit. In the afternoon, the excursion continues to the Mediterranean, Slovenia’s coast. The highlight is a visit to Piran, the oldest and most beautiful town on the Slovenian coast where you can admire its charming Venetian architecture. You are also welcome to explore lively Portorož, the most popular Slovenian coastal resort featuring bars, casinos and plenty of nightlife, a total contrast to historical Piran.
Post-conference tours

25 April 2008 from 10:00 until 17:00

1. EXCURSION TO THE DOLENJSKA REGION

Otočec & Novo mesto with wine tasting

The Dolenjska region is a charming area of gently rolling hills, vineyards, forests, numerous churches and some of Slovenia’s best preserved castles such as the Otočec castle, occupying a tiny island in the middle of the Krka River. The visit to the castle will be followed by a coach ride to Trska gora (hillock near Otočec) to try some of the excellent local wines and food.

After wine testing we will go to the Novo mesto. Novo mesto, also called the metropolis of Dolenjska, was founded in the year 1365, when the Austrian Archduke Rudolf IV granted city rights to the town at the bend of the Krka River. Officially called Rudolfsverd, it grew as Novo mesto and soon became an administration, cultural, religious and business center of Dolenjska. Novo mesto is situated in the midst of the hilly landscape of Dolenjska, embraced by the Krka River.

25 April 2008 from 14:00 until 20:00

2. MEDIEVAL CITIES - ŠKOFJAJA LOKA & KRANJ

This half-day excursion takes you to see two Slovenian towns. Kranj is Slovenia’s fourth largest town with an attractive Old town. The old town of Kranj is located on a slope above the rivers Kokra and Sava and attracts visitors with many beautiful old buildings.

Another old town is Škofja loka, a town which has preserved its medieval character. Throughout the centuries the inhabitants of the town and its surroundings were occupied in many trades, which developed at the end of the Middle Ages into guilds. There were many famous artists, writers and scientists who created a rich cultural heritage for the town, as a result of constantly working in an environment full of art and nature.

A sightseeing tour in Škofja Loka will take you through its narrow streets to the 15th century Jacob’s parish church, to the old Town Hall from the 16th century, and other medieval buildings nearby and eventually to the Frienzing bishops’ castle on a hill above the town. Afterwards you will have some free time for refreshments, snacks or further exploring of the town.

Duration: 6 hours
Price: 54 EUR per person
Included: bus transport, English-speaking guide, entrance fee to museum
Min: 20 pax

For all participants who are planning to have pre or post-stay

We are pleased to offer special programmes for those who are planning to prolong their stay in Slovenia. Programs are to be designed in line with your wishes, such as golf packages, spa visits, specific karst phenomena and similar per your request. Please contact us on: excursions@kompas.si
USEFUL INFORMATION

Climate
Most of Slovenia has a continental climate with cold winters and warm summers. The average temperatures are -2°C in January and 21°C in July. The average rainfall is 1000 mm in the coastal region, up to 3500 mm in the Alpine region, 800 mm in the Southeast and 1400 mm in Central Slovenia. An average temperature in Ljubljana in April is between 12 to 20°C. The evenings might be fresh so it is recommended to bring appropriate clothes.

Language
The official language is Slovene and in nationally mixed regions, Hungarian and Italian are also spoken. In contacts with foreigners, Slovenes mostly use English, German, Italian and French.

Currency
On 1 January 2007, Euro became the new currency of Slovenia, thus making the Slovenia the 13th member of the Euro zone, and the first EU New Member State that has fulfilled all criteria for its adoption. On 21 December 2007 Slovenia entered to the Schengen area.

Time zone
Central European time: GMT + 1

Entry
Slovenia has 64 international border crossings that are open 24 hours a day. Persons wishing to enter Slovenia must have a relevant travel document. EU/EEA and Croatian citizens do not need a passport to enter Slovenia, only a valid identity card. Other visitors may need a visa or a residence permit, unless otherwise stipulated by low or international agreements. All visitors, who in accordance with the law do not need a permit to enter the country, may stay in Slovenia for not more than 90 days in a period of 6 months. More information on the need, procedure and conditions for obtaining a visa to enter Slovenia is available on http://www.mzz.gov.si/en/visa_information

Visa Requirement
You may apply for a visa at any Slovene embassy. For this purpose you will need a Letter of Guarantee prepared by the organiser. The letter is available on the conference website http://www.tra2008.si/Portals/0/Dokumenti/Letter_of_Guarantee. You should complete it and return it by fax to +38612417296 or by e-mail to registration@cd-cc.si

Proceedings
Printed proceedings will include all abstracts of papers that were accepted by the Programme Committee. All submitted papers will be published on a CD.

Official language
Official language of the conference is English. The Slovene language used at the opening ceremony will be simultaneously translated.

Liability and insurance
All participants are reminded that neither the Organizing Committee nor the technical organizer Cankarjev dom, Cultural and Congress Centre are liable for any losses, accidents, or damage to persons or private property. Participants and accompanying persons are requested to make their own arrangements in respect of health and travel insurance.

Stores
Working hours are mostly nonstop without lunch time closing.
• Weekdays: 8:00 to 19:00
• Saturdays: 8:00 to 13:00
• Payment is in Euros; most stores accept credit cards: AMERICAN EXPRESS, DINERS, MASTER CARD - EUROCARD, and VISA.

Post Office Hours of operation:
• Weekdays: 8:00 to 18:00
• Saturdays: 8:00 to 12:00
Evenings and Sundays only main Post Offices in larger centers are open; www.posta.si
International outgoing call prefix: 00
International calls to Slovenia prefix: 386

Banks
Banks will exchange foreign currency and traveler checks for Euros and vice versa. Foreign residents may open Euro and foreign currency accounts, and it is possible to send money orders and transfer payments. Changing money is also possible at exchange offices in hotels, gasoline stations, tourist agencies, supermarkets, and numerous small exchange offices.

Hours of operation:
• Weekdays: 8:30-12:30 and 14:00-17:00
• Saturdays: 8:30 to 11:00/12:00

Drinking Water
The tap water is safe and drinkable throughout the country.

Electricity
Current is 220 V, 50 Hz.

Mobile telephone use
Mobile telephones in Slovenia operate in the network on the frequency bands of 900 MHz and 1800 MHz. Roaming is available in the following mobile networks: Mobitel, Simobil, Debitel, Easymobil, Mmobil, Tušmobil.

Anti smoking law
As of August 2007 smoking is prohibited in all public places and places of employment. It is only allowed in special areas.
